

## THE TEACHER PASSWORD

You must use a password to enter the Teacher Management System. The password for first-time users is given at the end of this paragraph. Use that password to enter Teacher Management. You must immediately create a new password. Once you create a password, the initial password will no longer work. The initial password is: mathisgreat

**SAVE YOUR PASSWORD!** Give it to each teacher who will use MathSteps. There is just one password for each user database. Do not let students find the password.

If you lose your password, and no one in the school knows it, call Technical Support. You will be given a new password that will allow you to enter Teacher Management. You must then immediately create a new password.

## CONTACTING TECHNICAL SUPPORT

If you have technical questions about this CD-ROM, please gather the following information before you call Technical Support.

1. The name/unit of the program: MathSteps Skills Tutorial CD-ROM;
2. The version number of the program printed on the CD-ROM (Version 2.0 is printed on the CD-ROMs that accompany this book, but Version 1.0 has no version number);
3. Configuration of your computer, including RAM, video card, and system information;
4. A brief description of the problem, including any error messages.

Houghton Mifflin K–8 Technical Support can be reached at 1-800-758-6762.

Information about the MathSteps Skills Tutorial CD-ROM can be found on Education Place at: [www.eduplace.com/mathstepscd](http://www.eduplace.com/mathstepscd)
