

Name _____ Date _____

Read a Picture Graph

CA Standard
SDAP 1.2, AF 1.3

A picture graph uses symbols to show information.
The key tells how many each symbol stands for.

Use the information in the picture graph to answer the questions.

1. How many white cats are there?

2. How many cats with stripes are there?

3. How many more cats with spots are there than white cats?

4. Which kind of cats is there the fewest of?

Writing and Reasoning How many cats are there in all? Explain how you can find the total number of cats.
