

# Make a Table

**CA Standards**  
**KEY NS 2.2, AF 1.3**

**Read It.** Look for information.

1. How many more people visit the Comics booth than the Dolls booth at the fair?

Fair Booth	Number of Visitors
Crafts	53
Dolls	22
Comics	49

**Model It.** Fill in the model to solve.

_____ Comics visitors	_____ Dolls visitors
_____ more Comics visitors than Dolls visitors	

**Solve the problem.**  $49 - 22 = 27$

2. Use the table to solve.  
 How many more pies were sold on Day 1 than on Day 3?

Days	Number of Pies
Day 1	22
Day 2	16
Day 3	11

_____ pies on Day 1	_____ pies on Day 3
_____ more pies on Day 1 than on Day 3	

**Writing and Reasoning** How do you use the table and the model to help you solve?
