# Hands On: Use a Multiplication Table

CA Standard  
KEY NS 2.2

You can use a multiplication table to find products.

There are 5 pages of math problems. There are 4 problems on each page. How many problems are there in all?

**Step 1** Find the row for 4 and column for 5.

**Step 2** The product is in the square where the row and column meet.

$$4 \times 5 = 20$$

**Solution:** There are 20 math problems.

×	0	1	2	3	4	5	6	7	8	9	10
0	0	0	0	0	0	0					
1	0	1	2	3	4	5					
2	0	2	4	6	8	10					
3	0	3	6	9	12	15					
4	0	4	8	12	16	20					
5											
6											
7											
8											
9											
10											

- Look for patterns in each row and column of the table. Use the patterns to help you complete the table.

Below are parts of a multiplication table. In which row or column is the part found?

2. 

	7	14	21	28
--	---	----	----	----
