Hands On: Draw Views of Solid Figures

You can draw different views of a solid figure.

What are the top, side, and front views?

Show the two-dimensional views of a three-dimensional figure.

Step 1 Use cubes to build the figure.
Step 2 Draw these views on grid paper.

Use cubes to build the figure. Then draw top view, a front view, a right side view, and a left side view of the figure on grid paper.
