What We’re Learning
During the next few weeks, our math class will be learning about geometry, fractions, and probability.
You can expect to see work that provides practice with shapes, fractions, and probability.
As we learn about geometry and fractions, you may wish to use the following sample as a guide.

Vocabulary
- **face** The flat surface of a solid shape.
- **edge** The segment where two faces of a solid shape meet.
- **line of symmetry** A line that separates a shape into two matching parts.
- **congruent** Two shapes that are the same size and shape.

Guiding Your Child

**Solid Shapes**
- Cone
- Cube
- Cylinder
- Rectangular Prism
- Pyramid
- Sphere

**Plane Shapes**
- Square
- Rectangle
- Triangle
- Circle

**Fractions**
- \( \frac{1}{3} \)
- \( \frac{1}{4} \)
- \( \frac{1}{2} \)
- \( \frac{1}{5} \)

Sincerely,
Your child’s teacher
