

Dear Family,

In this unit, your child will explore and count coins and various coin combinations. Children will also explore dollars and combine different coins to equal one dollar.

Then your child will count both dollars and coins.

Say: \$1.00 \$1.25 \$1.35 \$1.40

You can help at home by providing opportunities for your child to practice counting money. Begin with amounts less than \$1.00.

Please call if you have any questions or concerns. Thank you for helping your child to learn mathematics.

Sincerely,
Your child's teacher
