

Unit 5 Overview

Consolidation of Concepts

UNIT 5 REVIEWS AND BUILDS on children's ability to add and subtract and to use these operations as they make up and solve story problems. Children work with numbers 1 through 20 on the 1–20 Boards, deepening understanding of teen numbers as one ten and some ones. They also continue working with pattern blocks and Attribute Cards to classify objects, extend repeating patterns, make shape pictures, and turn and flip shapes.
