

Unit 6 Overview

Money, Time, Measurement, and Numbers

UNIT 6 REVIEWS AND BUILDS on children's knowledge of numbers through 100 and encourages them to use numbers to express quantities of money, time, and length. Children learn coin names and values for pennies, nickels, and dimes, and that 100 cents equals one dollar. Activities with analog and digital clocks prepare children to read time to the hour and half-hour. The use of square-inch tiles and centimeter cubes to measure lengths in inches and centimeters introduces them to the concept of measurement.
