

Dear Family:

In the next few days, please find 20 of the same kind of small object that your child can take to school and paste onto a sheet of paper. For example, your child can use buttons or stickers, or you can cut out 20 small pieces of paper or fabric.

The objects will be used for an activity to help your child learn to see the group of 10 inside each of the teen numbers: 11, 12, 13, 14, 15, 16, 17, 18, and 19.

Thank you for your cooperation!

Sincerely,
Your child's teacher
