

Dear Family,

This week \_\_\_\_\_ will learn about solving problems. Using the topic “Build with Me,” we will read stories about building things and working together to solve problems. You can help your child learn more by talking with her/him about things he/she is doing at school and the new letters and words that he/she is learning. Here are some ways that you can work with your child at home.

### Think Talk &

- What did you read today?
- What was the problem in the story?
- How was it solved?
- What problem did you solve today?

### Home Activities

#### Mm Hunt

Look for *Mms* in newspaper and magazine headlines. Underline the *Mms* you find and count them together. Encourage your child to trace the letters so he/she can familiarize herself/himself with their shape.

#### Building Bugs

Your child will listen to the book *Bumbling Building Bugs* this week. It is about a group of bugs that work together to build a road and a bridge. Ask your child to tell you about the different bugs in the book. Observe harmless insects outside.

### What I Learned

Here is a note from your child and her/his teacher.
