

**How to make:** Title the bulletin board “Our Town.” Cover the top third of the bulletin board with blue paper and the bottom two thirds with green paper to suggest the sky and the ground. Draw and cut out three houses and one apartment building from colored construction paper. Draw a door on each building, and label each door with the Picture Clue *eel* or one of the letter pairs *cl*, *fl*, or *sl*. Staple the buildings onto the bulletin board. Make twelve individual windows from small squares of white construction paper, and print a Basic Word from Units 13 and 14 on each window. Put the spelling-word windows in a shoe box. Label the box *Building Materials*. Staple it to the bottom of the bulletin board.

**How to use:** Have the children take turns putting the windows on the appropriate buildings. Ask children to think of other *cl*, *fl*, *sl*, or *ee* words that name things they might see in a town (Examples: cloud, flower, slide, tree). Have the children complete the picture by adding drawings or cut-outs of these items.
