

BULLETIN BOARD

How to make: Title the bulletin board “Making Music.” Cut out or draw two treble clef staves. Label each section of each staff as shown. Then make musical half notes by cutting paper circles from construction paper and stapling sections of drinking straws to them. Write the Unit 6 Basic Words on the notes, and place them in a box covered with sections of black and white construction paper to look like a piano keyboard. Attach the box to the bottom of the bulletin board.

How to use: Have students sort the Spelling Words by their vowel sounds. Provide pushpins for students to attach the notes to the sections of the staves.
