Tick-Tack-Spell

Players: 4 or more, plus a leader

You need: chalkboard, chalk, list of Unit 18 Spelling Words

How to play: Choose one player to be the leader. The leader draws a tick-tack-toe grid on the chalkboard. Then he or she divides the other players into two teams, the X Team and the O Team.

• The leader asks the first X Team member to spell a Spelling Word from Unit 18. If the word is spelled correctly, the team gets to decide where to place the first X.

• If the word is not spelled correctly, the first O Team member may try to spell the word. If the spelling is correct, the team gets to decide where to place the first O.

• The game continues with X and O Teams taking turns until one team completes a row of three Xs or Os. The row may run across, down, or diagonally.
