

Spelling Game

Go Fish

Players: 2

You need: 12 index cards, marker, Unit 19 Basic Word list

How to play: Write the Basic Words from Unit 19 on index cards. Place the cards face-down on a table and mix them up. Each player then takes three cards and leaves the rest face-down on the table.

- Players take turns trying to make a homophone match by asking each other for certain cards. For example, if Player 1 has the word *hear*, he or she asks Player 2 for the word *here*. Player 1 should spell *here* to make the request clear.
- If Player 2 has the card Player 1 asks for, he or she gives it to Player 1. Player 1 lays the cards that show the homophone match face-up on the table. If either player does not have the card requested, the player “fishes” one card from the cards on the table to try to find the card he or she needs.

Players take turns until only one card remains: *they're*, *their*, or *there*.
