

Spelling Game

Where's the Word?

Players: 2 teams of 2 players

You need: two blank 15 x 15 grids, two lists of Unit 1 Basic Words, pencils

How to play: Teams create and solve word search puzzles.

- Each team writes the 20 Basic Words in a grid, using one letter per square. The words may be written horizontally, vertically, or diagonally. More than one word may appear in a row or column. Words may also intersect and share a letter. Then players fill in any blank squares in the grid with any letters they choose.
- Teams exchange grids, search for the 20 Basic Words, and circle them. The team that finishes first—and has correctly circled all the words—wins.

y	n	r	e	o	l	l	d	i	a	f	a	c	t	k
