Game**

Spell and Match

Players: 2 teams of 2 players, plus a caller

You need: 40 index cards, a list of Unit 2 Basic Words, pencils

How to play: Teams take turns drawing cards and writing Basic Words.

1. The caller writes each Basic Word on an index card. He or she then places 10 word cards and 10 blank cards face down in five rows of four cards each.
2. One player from team 1 sits with his or her back to the card table. The second player from team 1 turns over two cards. If two word cards are revealed, the team loses its turn. The caller turns the cards face down again, and team 2 takes a try.
3. If, however, a word card and a blank card are turned over, the caller reads the word aloud and the player facing away from the card table writes the word on the blank card. If the word is spelled correctly, the team keeps those two cards, and the caller replaces them on the table with another word card and another blank card.
4. On each team, the members take turns facing away from the table.
5. Teams alternate taking turns until all the cards have been used. The team with the most cards wins.
