

## Spelling Game

# Compound Concentration

**Players:** 2–4, plus a checker

**You need:** 38 cards, with one part of each compound word from the Unit 10 Basic Word list written on each one (leave out *up-to-date*, which will not form a pair)

**How to play:** Players match cards to form compound words.

1. Players shuffle the 38 cards and place them face down on a table or the floor.
2. One player turns two cards face up. If the two cards do not make a compound word match, the player turns the cards face down to the same places. Then the next player takes a turn.
3. If a compound word match is made, the player puts the two cards together and says the word. The checker makes sure the word is on the Basic List. If so, the player takes those two cards, holds them face down, and spells the word, noting whether it is spelled as two words, a hyphenated word, or one word. If the spelling is correct, the player gets another turn and keeps the cards. If the spelling is not correct, the player keeps the cards, but the other player takes a turn.
4. At the end of the game, the player with the most cards wins.
