

# Spelling Game

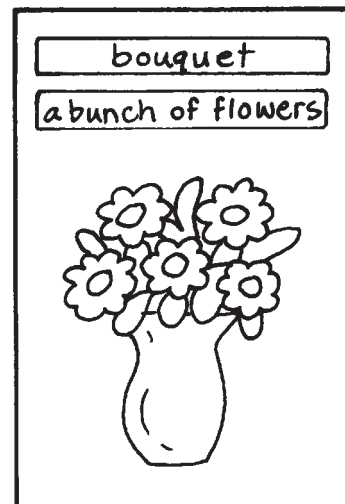

## Dictionary Mix-Up

**Players:** teams of 2–4, plus a checker

**You need:** list of Unit 35 Basic Words for each team, 20 unlined cards for each team, file folder labels, pencils, crayons or markers

**How to play:** Players must correct a mixed-up picture dictionary.

1. Players create picture cards, one for each of the 20 Basic Words in Unit 35. The word and definition accompany each picture. On each card, either the word OR the definition is incorrect.
2. When the teams finish creating the picture cards, they trade the decks of cards.
3. Using additional file-folder labels, teams correct words and definitions until all cards are correct. They put the cards in alphabetical order to finish the dictionary.
4. The winning team is the first one to correct the words and definitions and to alphabetize the words correctly. A checker will make sure the dictionary is correct.

The corrected picture card
