

Spelling Game

Magazine Madness

Players: 2 or more

You need: Unit 10 Basic Word list for each player, timer, magazines, markers

How to play: Players find Basic Words in magazines.

- Each player is given a magazine, such as a weekly newsmagazine. In a given time period, such as 10 minutes, the players look in the magazine for words on the Basic Word list. When players find a word, they circle it with the marker.
- At the end of the time period, each player displays his or her words and a tally is recorded. The player with the most words circled wins.

Other ways to play this game: Players may circle any form of a Basic Word. For example, *reason*, *reasons*, and *reasoned* could count for the Basic Word *reasoning*.
