Relay Race

Players: 4 or more, plus a referee

You need: 20 index cards, Unit 27 Basic Word list, game markers for each player, drawing paper, pen

How to play: Players race to reach the finish line by spelling words correctly.

- Players write one Basic Word on each of the index cards. Players draw a game board such as the one shown below.
- Players form two teams with equal numbers of players. Each team places its markers at the starting line. Players try to reach the finish line by spelling the Basic Words correctly.
- The referee draws a word card and reads it aloud. The first player from Team 1 spells the word. If the word is spelled correctly, the player advances his or her marker to the first section. Then Team 2 takes a turn.
- On Team 1's next turn, a different team member spells the word.
- Play continues until all members of one team reach the finish line. That team wins.
