

Name _____

Sunlight and Leaves

Steps

1. Water both plants. Put them in a sunny place.

2. **Experiment** Draw a picture of each plant. Cover one plant with a box.

3. **Compare** Look at the plants after one week. Draw how each plant looks now.

Name _____

Think and Share

1. **Infer** Compare your drawings with those of others. What differences do you find?

2. **Experiment** If your drawings are different, try the experiment again. Did the results change?

Experiment

What will happen to the covered plant if you leave the cover off?

Predict and then try it.

Guided Inquiry
