

Name _____

Sharp or Flat

Steps

- 1. Use Models** Observe the shapes of the model teeth.
- 2.** Think about the kinds of food you eat. Record how you use your different teeth.

- 3. Compare** Look at the animal pictures. Decide which human teeth are like the teeth of each animal.

Name _____

Think and Share

1. **Compare** What tooth shape would be helpful for tearing?

2. **Infer** How might the shape of an animal's teeth affect the kind of food it eats?

Ask Questions

Guided Inquiry

Think about questions you have about the kinds of teeth different animals have.

Work together to make a plan to find answers.
