# Food Chain

## Steps

1. Cut out food-chain strips.

**Safety:** Scissors are sharp!

2. Find the Sun strip. Glue the ends to make a loop.

3. **Use Models** Add loops in the order of the clues on the strips. There's your food chain!

4. **Communicate** Talk to a partner. Tell what a food chain is.

## Think and Share

1. Why did your food chain model start with the Sun?

---

---

2. **Infer** Why does a hawk need plants to live?

---

---

### Ask Questions

Guided Inquiry

Ask what some other animals eat.

Use the answers to make a new food chain.

**Communicate** how the links connect.
