

Name _____

Animal Homes

Steps

- 1. Observe** Walk around outside your school. Look for ways that animals use plants. Use a hand lens to see small places.
- 2. Record Data** Draw pictures of the animal homes you find.
- 3. Ask Questions** Make a list of questions about how animals use plants for homes. Work with a partner to find answers.

Name _____

Think and Share

1. **Infer** What animals might live in the homes you found?

2. How do animals use plants?

Experiment

Guided Inquiry

Try changing a plant's environment.

Work together with a partner. Talk about what happens when environments change.
