## Keeping Warm

### Steps

1. Put a paper towel on your arm. Put a bag of ice on the paper towel. Record how your arm feels.

---

2. **Predict** Will fiberfill help keep your skin warm? Write down what you think.

---

---

3. **Record Data** Put fiberfill between the paper towel and the bag of ice. Record how your arm feels.

---

Name \_\_\_\_\_

## Think and Share

1. Did the fiberfill help keep your skin warm?  
Why do you think that happened?

---

---

2. **Infer** How does a thick body covering help an animal that lives along a coast?

---

---

### Experiment

Guided Inquiry

Do the same activity. Use other materials between the paper towel and the ice bag. **Observe** what happens.
