

Name _____

Use Weather Tools

Steps

1. Take a thermometer, a rain collector, and a windsock outside.
2. **Record Data** Read the thermometer. Record the temperature. Observe the windsock. Draw what you see.
3. **Measure** Use a ruler to measure any rain. Record what you measure. Empty the rain collector.
4. Do these steps for five days.

Name _____

Think and Share

1. How do tools help you learn about weather?

2. **Predict** Look at your chart. Predict the temperature for tomorrow.

Ask Questions

Guided Inquiry

Write questions about weather at other times of the year. Find answers by using weather tools to **measure**.
