

Name _____

Make a Mixture

Steps

1. Put salt in a bowl. Add water to the bowl.
2. Stir. Tell how the mixture looks.
Safety: Do not taste the mixture!
3. **Observe** Put the mixture in a warm place. Look at what happens after a few days.

Think and Share

1. What happened to the salt?

Name _____

2. Communicate Write what you learned about the mixture. Share it with others.

Experiment

Guided Inquiry

Try mixing other things with water.
You might use solids or other liquids.
Communicate what you observe to a partner.
