

Name _____

Look for Rocks

Steps

- 1. Observe** Take a walk around the school. Walk both inside and outside. Look for things made of rocks. Draw what you see.

- 2. Observe** Use a hand lens to look closely at things made of rocks. Add the details you see to your drawings.
- 3. Communicate** Compare your drawings with those of a partner. Talk about the ways that people use rocks.

Name _____

Think and Share

1. Compare How are objects made of rock different?

2. Infer Why do you think people use rocks in these different ways?

Ask Questions

Guided Inquiry

Take a class survey. Find out how many children live in homes made with rocks or without rocks.

Use data to make a bar graph of your results.
