

# Classify Animals

## Steps

- 1. Classify** Sort animal pictures into groups that are alike in some way.
- 2. Record Data** On a separate sheet of paper, make a graph to show your groups. Label each group. Color in one block on your graph for every animal.
- 3. Communicate** Tell how you sorted the animals. Tell how many animals are in each group.

## Think and Share

1. How are the animals in a group alike?

---

---

Name \_\_\_\_\_

2. How can you use body parts to group animals?

---

---

### Investigate More!

**Solve a Problem** Suppose you have a friend who has never seen a turtle. How would you tell your friend what a turtle looks like?
