

# A Person's Life

## Steps

- 1. Observe** Look at pictures of a person.
- 2. Compare** Order the pictures to show how the person changed as she grew.
- 3. Communicate** Tell a partner how the pictures show the changes in the life cycle of a person.

## Think and Share

1. What is the beginning of a person's life?

---

---

---

Name \_\_\_\_\_

**2. Infer** What is one way that a person changes as he or she grows?

---

---

**Investigate More!**

**Work Together** Spread out your hand. Have a friend measure from your little finger to your thumb. Then measure an adult's hand. Share what you learn.
