

Classify Objects

Steps

- 1. Observe** Look for ways in which some objects are alike or different.
- 2. Classify** Sort the objects into groups that are alike in one way.
- 3. Record Data** On a sheet of paper, draw a picture of the objects in each group. Write the names of your groups.

Think And Share

1. How are the objects in each group alike?

Name _____

2. Compare How do your groups compare to those of the rest of the class?

Investigate More!

Work Together Cut out pictures of objects from magazines. Talk with a partner about a rule for sorting the objects. Then use the rule.
