

Compare Rocks

Steps

- 1. Observe** Use a hand lens to look at each rock. Touch each rock.
- 2. Compare** Look for ways in which the rocks are alike. Look for ways in which the rocks are different.
- 3. Classify** Sort the rocks into groups. Tell how the rocks in a group are alike.

Name _____

Think and Share

1. Communicate Tell what you learned about the rocks you observed.

2. What are some other ways to sort the rocks?

Investigate More!

Experiment Rub each rock on different materials, such as the back of a tile. Talk with others about what you observe.
