# Record Weather

## Steps

- 1. Observe** Look outside to see the weather today.
- 2. Cut out pictures** that show the weather today. **Safety:** Scissors are sharp!
- 3. Record Data** Glue the pictures in your weather chart.
- 4. Repeat** each day for one week.

## Think and Share

1. What does your chart tell you about the weather?

---

---

Name \_\_\_\_\_

2. Why might you record two pictures for the same day?

---

---

---

### Investigate More!

**Work Together** Record the weather for two more weeks. Talk with others. Were their data the same or different? Tell why.
