

Name _____

Moon Changes

Steps

1. Cut out Moon pictures. **Safety:** Scissors are sharp!
2. **Use Numbers** Pile the pictures in order from 1 to 12. Staple the pictures together to make a book.
3. **Use Models** Hold one side of the book in one hand. Flip the pages with your other hand.

Think and Share

1. What did you observe about the Moon when you flipped the pages?

Name _____

2. What do you think your model shows about the real Moon?

Investigate More!

Experiment How can you predict what the Moon will look like on a cloudy night? Make a plan to find out. Tell how your plan works.
