

Use Magnets

Steps

- 1. Observe** Test each object with a magnet.
- 2. Record Data** Decide whether the magnet pulls the object. Record your results.

Object	Magnet Pulls	Magnet Does Not Pull
paper		✓

- 3. Compare** Tell how the objects that were pulled and not pulled to the magnet are different.

Name _____

Think and Share

1. Infer What is the same about the objects that the magnet pulled?

2. Predict Think of an object that you did not test. Do you think the magnet will pull it? Why or why not?

Investigate More!

Experiment Will a magnet attract an object if there is something between the magnet and the object? Make a plan for finding an answer.
