

Name _____

Make a Mixture

Steps

1. Predict Put salt in a bowl. Add water to the bowl. Tell what you think will happen when you stir the mixture.

2. Stir. Tell how the mixture looks.
Safety: Do not taste the mixture!

3. Observe Put the mixture in a warm place. Record what happens after a few days.

Name _____

Think and Share

1. How does your prediction compare to what happens?

2. **Communicate** Tell what you learned about the mixture.

Investigate More!

Work Together Try mixing other things with water. You might use solids or other liquids. Share what you observe.
