

Group Plants

Steps

- 1. Observe** Go outdoors with your class. Observe different kinds of plants.
- 2. Record Data** Draw each plant on an index card.
- 3. Classify** Look at how the plants you drew are alike and different. Sort the plant pictures into two groups.
- 4.** Write the name of each group. Glue the pictures in each group to the paper.

Think and Share

1. How are plants in one of your groups alike?

Name _____

2. Compare How are the plants in the two groups different?

Investigate More!

Work Together Work with a partner. Think about ways to group plants by how they change during the year. Tell how the plants in the groups are different.
