

Explore Feathers

Steps

1. **Observe** Look at a feather. Use a hand lens. Draw what you see.

2. **Predict** Predict what will happen when you put water on the feather. Record your prediction.

3. **Observe** Put two drops of water on the feather. Observe what happens. Record your observations.

Name _____

Think and Share

1. How does your prediction compare to what you observed?

2. **Infer** What is one way that feathers help a bird?
