

Model Bird Beaks

Steps

- 1. Use Models** Use objects to act as bird food.
Spread rice on the foam block. Float foam peanuts on the water.
- 2. Use Models** Use tweezers and a spoon to act as bird's beaks. Use each tool to pick up a piece of rice. **Safety:** Tweezers are sharp!
- 3.** Use each tool to pick up some foam peanuts.

Think and Share

- 1. Compare** Which tool worked better for picking up each kind of object?

Name _____

2. Infer Which kinds of beaks are better for getting food from trees and logs?

Investigate More!

Experiment Think of other ways to make models of other animal body parts. Make one model. Experiment to find out how the body part works. What was your body part able to do?
