

Match Animals

Steps

- 1. Observe** Look at the animal pictures. Name the animals.
- 2. Classify** Think about how the animal pictures are alike and different. Sort the pictures. Make a group for each kind of animal.
- 3.** Order each group. Put the baby animal first and the adult animal last.

Think and Share

- 1. Compare** How are the baby and adult in each group alike?

Name _____

2. How do animals change from babies to adults?

Investigate More!

Work Together With a partner, think of an animal. Talk about how the animal looks as a newborn. Make cards to show how the animal grows and changes.
