

Make a Food Chain

Steps

1. Cut along the dotted lines to make food chain strips. **Safety:** Scissors are sharp!
2. Find the strip with the Sun. Glue the ends together to make a loop.
3. **Use Models** Add loops in the correct order to make a food chain. Use the clues on the strips.
4. **Communicate** Talk with a partner. Tell how each link connects to the next link.

Think and Share

1. Why did your food chain model start with the Sun?

Name _____

2. Why does a hawk need plants to live?
