

# Observe Sound

## Steps

1. Stretch a piece of wax paper over the opening of a jar. Use a rubber band to hold the wax paper in place. **Safety:** Wear goggles!
2. Put paper pieces on the wax paper.
3. **Observe** Gently tap the wax paper. Tell what you see and hear.

---

---

---

## Think and Share

1. **Infer** What caused the paper to move the way it did?

---

---

---

Name \_\_\_\_\_

2. How could you cause the paper to move differently?

---

---

---

## Investigate More!

**Experiment** How can you make sound with only a jar and a rubber band? Make a plan to find out. Share your results with the class.
