

# Animal Parts

## Steps

- 1. Compare** Look at the pictures. Tell how the animals are alike and different.
- 2. Classify** Sort the animal pictures into groups that are alike in one way.
- 3. Record Data** Name your groups. Draw pictures or write names to show the animals in each group.

Name \_\_\_\_\_

## Think and Share

**1. Classify** How did you group the animals?

---

---

---

---

**2. Infer** How might an animal use its long neck?

---

### Ask Questions

Guided Inquiry

Think of questions about how animals use body parts. Make a plan to find answers. Communicate what you find.
