

Plant Seeds

Steps

1. Choose one kind of seed. Look at the picture on the packet. Plant several seeds in soil. Water as needed. **Safety:** Wear goggles!
2. **Observe** Watch for a plant to start to grow. Draw that plant every day in the chart below.
3. **Measure** Measure your plant every day. Record its height below each drawing. **Safety:** Wash your hands!

Plant Growth

Date	Date	Date	Date	Date
Height	Height	Height	Height	Height

Date	Date	Date	Date	Date
Height	Height	Height	Height	Height

Think and Share

1. **Compare** How is your plant like the plant pictured on the seed packet? How is it different?

2. **Infer** Why does your plant look like the one on the seed packet?

Ask Questions

Guided Inquiry

Think about how plants are alike and different.
Ask: What if I planted a _____ seed? Predict what would happen.
