

# Compare Pea Pods

## Steps

- 1. Measure** Put a pea pod on each index card. Measure the length of each pod in centimeters. Record your data on the cards.
- 2. Record Data** Open pod A. Count the number of peas. Record the number on the card. Repeat for each pod.
- 3. Use Numbers** Complete the bar graph. Add labels. Use the data on the cards to graph the number of peas in each pod.

## Think and Share

- 1. Use Numbers** How do the lengths of the pods compare? How do the number of peas compare?

---

---

---

Name \_\_\_\_\_

**2. Predict** What do you think you would find if you looked at four more pea pods? Tell why.

---

---

---

---

---

---

---

**Experiment**

Measure the length of three bananas or apples. Use a balance to measure the mass of each fruit. How are fruits of the same kind different?
