

Make a Magnet

Procedure

- 1. Collaborate** Work with a partner. Place several small objects on your desk. Record each object in the chart below.

Magnet

Which Objects Are Attracted?		
Object	Prediction	Observation

- 2. Predict** With your partner, predict what objects the magnet will pull toward it, or **attract**. These objects will stick to the magnet. Record your predictions as “yes” or “no” in your chart. Then move a magnet close to each object. Record your observations.
- 3. Predict** Repeat step 2 using an iron nail in place of the magnet. Use the chart below. **Safety:** Be careful when handling the nail.
