

# Where Do Earthworms Go?, Page 1

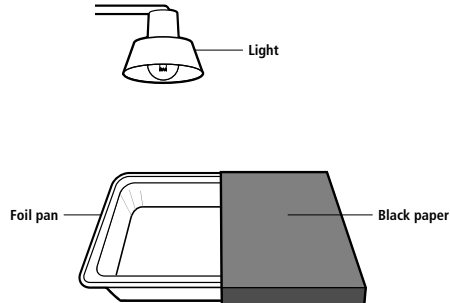

Draw a star next to your team's experiment.

Set up your materials the way that the picture shows.

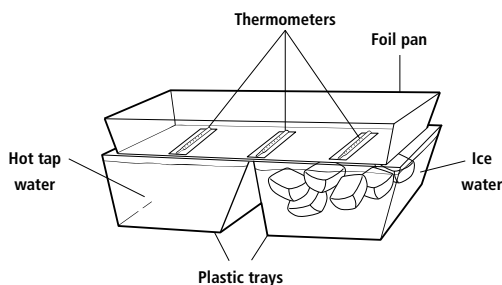

## Do Earthworms Go to Wet or Dry?

## Do Earthworms Go to Dark or Light?

## Do Earthworms Go to Hot, Warm, or Cold?

Draw where the worms went after experimenting.

# Where Do Earthworms Go?, Page 2

**1** Write the name of your experiment.

---

---

**2** Place worms in the middle of the pan. Watch for five minutes. Where do they go?

---

---

**3** Place half of the worms at one end of the pan, and half at the other end. Watch them for 5 minutes. Where do they go?

---

**4** Repeat the experiment two more times. Do you get the same results?

---

**5** Compare results with the whole class. Then write a conclusion by finishing this sentence:

My Conclusion: Earthworms prefer to be where it is

---
