

Looking Through a Telescope

STUDENT RESOURCE **8.2**

ACTIVITY SHEET

- 1 Look at an object *without* the telescope. Choose something across the classroom or outside the window. Draw what you see in this box.

A large, empty rectangular box with a black border, intended for the student to draw what they see without using a telescope.

- 2 Look at the same object with the telescope. (You will see only part of it this time.) Draw what you see in this box.

A large, empty rectangular box with a black border, intended for the student to draw what they see through a telescope.
