

Section 8 Assessment

Vocabulary

Draw lines to match the words and definitions.

- | | |
|-----------------|---|
| 1 constellation | a measurement used for distances in space |
| 2 light year | a large object in space that gives off light and heat |
| 3 star | a pattern in the night sky |

Stars All Night

- 4 Why do the stars appear to move at night?

Constellations

- 5 Draw three constellations that you know, in the circles. Write their names. Poke holes for the stars.
